

High Speed Door Zipper

Why use zippers with High Speed Doors?

- Allows for intensive and silent high speed opening and closure
- More flexible – withstanding collisions and impacts caused by forklifts – safer for employees and equipment.
- Self-repairing
- Better sealing and insulating capabilities
- Minimal maintenance and long operating life of the door

High Speed Door Zipper Data Sheet

Plastic Elements	Color Available	Black / White
	Raw Material	POM / Nylon
	Fit to Customer Rail	8 - 11mm
Tape	Color Available	Black / White
	Raw Material	PES / PVC
	Weldable to PVC	Width 47 mm Weldable Area 35 mm Thikness 1.7 mm
Tech Features	Lateral Strength One Element	90 Kg
	Test Cycle	2000
